Secure your wallet

Before getting started, watch this short video to learn about your recovery phrase and how to keep your wallet safe.

Your recovery phrase is the "master key" to your wallet and funds.

How do I save my recovery phrase?

- Save in a password manager
- Store in a bank vault.
- Store in a safe-deposit box.
- Write down and store in multiple secret places.

Should I share my recovery phrase?
Never, ever share your recovery phrase, even with MetaMask!
